Mr. Robert Looper, 50 Zengel Drive, was present to outline for Council damage which he suffered at his residence during the recent two very heavy rain storms. A recommendation from a civil engineer has been received by Mr. Looper and will be forwarded to the City of Centerville defining problems which caused the water flow toward the Looper property and how the situation can be improved. Mr. Looper asked the City to rectify the problem now so that a more serious problem does not exist in the future. This matter will be reviewed between the City Manager and the City Engineer.

Mr. Kenning outlined other water drainage problems throughout the City of Centerville which occurred from the rain storm on Friday, September 16, 1988.
