

Work Session January 27, 1969

① Dr. Thomas

a. Compromise? what it might be.

Master Planner recommended an average of 10 units per acre be used for apartment construction in Centerville = a minimum of 8 and a maximum of 12.

(600 units on 50 acres) + (15 to 20 acres open space) other 25 acres for industry.

Probably a 6 year project - the bedroom capacity will change while construction to meet the demands.

Housing Corporation will make a compromise of 900 units.

HCC will consider all 10 acres for school as donation.

② Change in Zoning Ordinance - future work session - will be re-typed

③ February 13 meeting with Holcomb and Young. 7:30 Municipal Building.

④ Salaries for Council - Maximum ⁸10.00 meeting for 4 meetings per month. (Work sessions and special sessions).

Ordinance must be passed and in force 6 months before Council Election.
