Dear Mr. Kenning:

This letter is in response to conversations between the City of Centerville and the Miami Valley Regional Planning Commission transportation staff regarding the Whipp Road Public Hearing that we conducted for the City. As you know, considerable opposition was expressed at the public meeting on the proposed Whipp Road improvement alternatives and your consultant is preparing another alternative which will meet the technical requirements and also be more acceptable to residents and businesses.

The Scope of Work in our original proposal to the City of Centerville for carrying out the citizens involvement process for Whipp Road did not anticipate the development of additional alternatives nor the need for more citizen input meetings. We have completed all parts of the existing Scope of Work except for preparing the final report. I assume that given the high level of citizen interest, the City will want to hold another public meeting on the revised alternative. I have drafted changes in the Agreement which would accommodate this additional work. I would suggest that the final report be prepared only after completing the entire process. The proposed changes in the Agreement are outlined below.

Parties to the Agreement - MVRPC and the Montgomery-Greene County Transportation and Development Planning Program merged effective July 1, 1982. The Agreement will be between the City of Centerville and MVRPC only.

Compensation - Increase the firm fixed fee from \$6,300 to \$10,500.

Method of Payment - Change from 50% upon execution and 50% upon satisfactory completion of the work to:

\$3,150 upon execution (50% of \$6,300) (paid)
\$3,150 within five months of execution
\$1,400 within seven months of execution
\$1,400 within nine months of execution
\$1,400 upon satisfactory completion of work

Period of Contract - Change from six months to twelve months. We will, as a practical matter, complete the project sooner depending on the consultant's work and on the citizen reactions to it.

Scope of Work - Add the following sequence of tasks to the original scope:

- Hold study team meeting to review newly revised alternative
- Hold pre-public meeting map display
- Conduct the public meeting
- Hold a study team meeting to select recommended alternative
- Send a newsletter to advise citizens of these new recommendations.

The Scope for the review of the revised alternative differs from the original in that we would not meet again with the property owners. We would then complete the last two steps - document and analyze citizen attitudes and prepare the final report.

If you have any question about this revision, please call me or Ted Baker of my staff. If these amendments to our Agreement are satisfactory, please sign both copies of this letter and return one copy to us. I believe that this can serve as the official amendment.

Thank you for your consideration. As always, it is a pleasure to serve the City of Centerville.

Sincerely,

CONCURRENCE BY:
