1. DESCRIPTION OF THE CORPORATION AND REPORTING ENTITY

Centerville Community Improvement Corporation (the Corporation) was incorporated as an Ohio nonprofit corporation for the sole purpose of advancing, encouraging and promoting industrial, economic, commercial and civic development within the City of Centerville, Ohio.

The Corporation is exempt from Ohio taxation pursuant to Ohio Revised Code Section 1702.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of Centerville Community Improvement Corporation have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to governmental nonprofit organizations. The Governmental Accounting Standards Board (GASB) is the accepted standard setting body for establishing governmental accounting and financial reporting principles. The Corporation also applies Financial Accounting Standards Board (FASB) statements and interpretations issued on or before November 30, 1989, provided they do not conflict with or contradict GASB pronouncements. The Corporation's more significant accounting policies are described below:

A. Basis of Presentation

Enterprise accounting is used to account for operations that are financed and operated in a manner similar to private business enterprises where the intent is that the costs (expenses, including depreciation) of providing goods or services to the general public on a continuing basis be financed or recovered primarily through user charges or where it has been decided that periodic determination of revenues earned, expenses incurred and net income is appropriate for capital maintenance, public policy, management control, accountability or other purposes.

B. Measurement Focus and Basis of Accounting

The accounting and financial reporting treatment is determined by its measurement focus. Enterprise accounting uses a flow of economic resources measurement focus. With this measurement focus, all assets and all liabilities are included on the balance sheet. Operating statements present increases (e.g. revenues) and decreases (e.g. expenses) in net total assets. Basis of accounting refers to when revenues and expenses are recognized in the accounts and reported in the financial statements. Basis of accounting relates to the timing of the measurements made. The accrual basis of accounting is used for reporting purposes. Revenues are recognized when they are earned, and expenses are recognized when they are incurred. Under the modified accrual basis of accounting, revenues are recognized when they become both measurable and available to finance expenditures of the current period.

C. Cash and Cash Equivalents

The Corporation's assistant treasurer accounts for all monies received and spent by the Corporation. The Corporation had no investments during the period.
