

Meeting Date: September 27, 1960

Members Present: Neiswonger, Theiss, Gordon and Gimble

The request from Woodbourne Farms for the approval of their plot plan was discussed at great lengths, concerning the street layouts, and access roads or sidewalks to the public school. A letter from Mr. H. Watts of the School Board was read stating that they did not desire an ~~access road~~ access road on the west side of their property. It was felt by a majority of the board members that the School Board should consider the access road, and it was decided to meet with the School board on October 5th and discuss the matter.

The application of Warren Deuber, 9271 Shawan Drive to construct a two room addition to his house was approved.

Meeting adjourned.
