

April 13, 1957

Dr. H. H. Tansing  
Montgomery County Health Commissioner  
3 East Second Street  
Dayton 2, Ohio

Dear Dr. Tansing:

In a meeting of the Centerville Planning Board of April 3rd, 1957, a resolution was passed to the effect that in the future no permits for buildings will be issued until a septic tank or other sanitary disposal facilities have been approved by the Montgomery County Board of Health.

We believe the above procedure will remove some of the pressure placed upon your office for permits for sanitary facilities with the argument that a building has already been started or completed.

We are mindful of the fact that in the past such procedure has been used and septic tank permits were approved which would not have been granted had the building not been started or completed.

Yours very truly,

VILLAGE OF CENTERVILLE

WJH:j  
cc: Mr. Frank L. Arnold, Chairman,  
Centerville Planning Board
