## Investment and Deposit Policy

### 1. Policy

It is the policy of the City of Centerville ("City") to invest public funds in a manner which will provide the highest investment return with maximum security while meeting all liquidity and operating demands of the City. All investment activities must conform with all applicable state and local statutes governing the investment of public funds.

### 2. Scope

This Investment and Deposit Policy ("Policy") applies to all financial assets of the City. The City funds subject to this Policy are hereinafter referred to as the "Active Portfolio."

The Director of Finance is authorized to pool cash balances from all funds of the City or investment purposes. All interest earnings will be credited to the fund from which the cash balance was drawn.

### 3. Objectives

The primary objectives of investment activities, in order of priority, shall be safety, liquidity and yield:

#### *A. Safety of Principal*

Safety of principal is the foremost objective of the City. Investments shall be undertaken in a manner that seeks to ensure the preservation of capital in the overall portfolio. This is accomplished by:

1. Limiting investments to the securities authorized by this policy.
2. Pre-qualifying the financial institutions, broker/dealers, and advisors with which the City will do business.
3. Diversifying the investment portfolio so that potential losses on individual securities will not significantly affect the safety of the portfolio.
4. Structuring the investment portfolio so that securities mature to meet cash requirements for ongoing operations, thereby avoiding the need to sell securities on the open market prior to maturity.

#### *B. Liquidity*

The investment portfolio shall remain sufficiently liquid to meet all operating requirements that may be reasonably anticipated. This is accomplished by:

1. Structuring the portfolio so that securities mature concurrent with cash needs to meet anticipated demands.
2. The portfolio should consist largely of securities with active secondary or resale markets.

3. A portion of the portfolio should be placed in money market funds or local government pools (STAR Ohio) which offer same-day liquidity for short-term funds.

*C. Return on Investments*

The investment portfolio shall be designed with the objective of attaining a market rate of return throughout budgetary and economic cycles, taking into account the investment risk constraints and liquidity needs. Return on investment is of secondary importance compared to the safety and liquidity objectives described above.

**4. Standards of Care**

*A. Delegation of Authority*

Authority to manage the City's investment program is derived from Chapter 234 of the Centerville Municipal Code. Management responsibility for the investment program is hereby delegated to the Director of Finance who shall act in accordance with established written procedures and internal controls for the operation of the investment program, consistent with this investment policy. The Director of Finance shall be responsible for all transactions undertaken and shall establish a system of controls to regulate the activities of subordinate officials. No person may engage in an investment transaction except as provided under the terms of this policy and the procedures established by the Director of Finance.

*B. Prudence*

The standard of prudence to be used by investment officials shall be the "prudent person" and/or "prudent investor" standard and shall be applied in the context of managing an overall portfolio. Investment officers acting in accordance with written procedures and this investment policy and exercising due diligence shall be relieved of personal responsibility for an individual security's credit risk or market price changes, provided deviations from expectations are reported in timely fashion and the actions of the investment officer are in accordance with this policy.

*C. Ethics and Conflicts of Interest*

Officers and employees involved in the investment process shall refrain from personal business activity that could conflict with the proper execution and management of the investment program, or that could impair their ability to make impartial investment decisions. Employees and investment officials shall disclose to the City Manager any material financial interests that could be related to the performance of the City's investments.

**5. Maturity**

To the extent possible, the City will attempt to match the term to maturity of its investments with the anticipated cash flow requirements. Except as provided by state law, the City will not directly invest in securities maturing more than five (5) years from the date of settlement, unless they are matched to a specific obligation or debt of the City.

**6. Diversification**

The City will diversify the Active Portfolio to reduce the risk of loss resulting from over concentration of assets in a specific maturity, a specific issue, or a specific class of securities. Strategies to achieve this shall be determined and revised periodically.

## 7. Authorized Financial Institutions and Dealers

Any financial institution, as defined by O.R.C. 135.03, is eligible to serve as an approved depository and/or investment provider. Eligible securities dealers and brokers must be members of the National Association of Securities Dealers (NASD), meet a minimum capital requirement of \$10,000,000, and have been in operation for at least five years. These may include "primary" dealers or regional dealers that qualify under the Securities and Exchange Commission (SEC) Rule 15C3-1 (uniform net capital rule). An investment advisor must be an eligible financial institution as defined by O.R.C. 135.03, or an advisor that is registered with the Securities and Exchange Commission.

All financial institutions and broker/dealers who desire to become qualified bidders for investment transactions must supply the Director of Finance with the following when requested, if applicable:

- A. *Completed broker/dealer questionnaire*
- B. *Proof of National Association of Securities Dealers certification*
- C. *Proof of state registration*
- D. *Audited financial statements*
- E. *Certification of having received and understood the City's Investment Policy, and agreeing to comply with the policy*
- F. *Depository Agreement*
- G. *Other relevant information as requested.*

The Director of Finance will maintain a list of authorized institutions and dealers. The Director of Finance:

- A. May make additions to the authorized list when investment and deposit policy requirements are met;
- B. Shall make deletions from the list (i) if and as directed by ordinance of City Council, (ii) upon failure of the financial institution to meet the requirement of this policy, or (iii) upon request of the financial institution or dealer; and
- C. May make deletions from the list based on the following:
  1. Perceived financial difficulties of the financial institution or dealer;
  2. Consistent lack of competitiveness by the financial institution or dealer;
  3. Lack of experience or familiarity of the account representative in providing service to large institutional accounts; or
  4. When deemed in the best interest of the City.

## 8. Central Depository

To ensure the City will receive the best service possible, and that financial institutions will have an equal opportunity to participate, the City will competitively seek quotes for a central depository bank(s) through a request for proposals at least every five (5) years. The central depository bank(s) will have the same opportunity as other eligible financial institutions to provide quotes on the investment of the City's excess funds.

## 9. Authorized Investments

The Director of Finance may make investments of City funds in eligible securities authorized by ORC 135.14, as amended.

**10. Derivatives**

Investments in derivatives are strictly forbidden. A derivative is defined in Chapter 135 of the Ohio Revised Code as a financial instrument, contract or obligation whose value is based upon or linked to another asset or index or both, separate from the financial instrument, contract or obligation itself.

**11. Security for the Repayment of Public Deposits**

All public depositories shall comply with the Ohio revised Code, including sections 135.18 and 135.181, with respect to collateralized security for the deposits of the City. The City may waive the first \$250,000 of collateral security for such deposits if the institution is insured pursuant to federal law. Failure of an institution to abide by any of the provisions of this section is cause for immediate suspension of the institution as a qualified depository for any City funds.

**12. Competitive Quotes**

- A. The purpose of seeking competitive quotes is to strengthen the investment program in terms of the level and consistency of performance. To the extent practical, all investments will be placed with financial institutions yielding the highest returns to the City. The right is reserved to reject the quote yielding the highest return of interest on any investment if inconsistent with the City's investment strategy, i.e. maturity, risk, liquidity, etc.
- B. Price and rate quotations on all trades may be obtained from sources within and outside the City. In the case of the sale of securities or the purchase of securities where all other factors are considered by the Director of Finance to be equal, the financial institution selected for placement will be determined by the following criteria and order of priority: 1) the financial institution situated within the City, or 2) the financial institution with the lesser amount of City funds on deposit at the time of the purchase of the security.

**13. Swapping of Government Securities**

A swap is a movement from one security to another and may be done for a variety of reasons, such as to increase yield, lengthen or shorten maturities, to take a profit, or to increase investment quality. Losses or gains on security swaps must be recorded as a completed sale and purchase. The Director of Finance will maintain details of every swap transaction.

**14. Safekeeping and Custody**

All security transactions, including collateral pledges, except for "pooled collateral" arrangements, shall be conducted on a delivery versus payment basis. Securities will be held by a third-party custodian designated by the Director of Finance and evidenced by safekeeping receipts.

**15. Reporting**

The Director of Finance will be responsible to provide regular reports (at least quarterly) to the City Manager about the City's investment activities. The report should include, at a minimum, the market value of the portfolio, a description of each security on hand, the date of maturity and the financial institution from which it was purchased.

**16. Policy Considerations**

- A. Any investment currently held that does not meet the guidelines of this policy shall be exempted from the requirements of this policy. At maturity or liquidation, such monies shall be reinvested only as provided by this policy.
- B. Whenever the money of the City is to be invested as provided by this policy, the Director of Finance, the City Manager and the Municipal Attorney shall comply with ORC Chapter 731.
- C. The policies as stated herein may be changed only with the approval of City Council.
